To: Tax Agent Board

Letter of reference

This is to testify that Ms Lifeng Zhang has been my accountant since early 2010.

I went to see her when I was about to set up my own transport business. She provided me very detailed advice on various business structures and the tax application on those structures, later on she completed all the business registrations with ASIC and ATO including applying for ABN, TFN and GST.

While advising me on my business, she also provided me great help on completing and lodging all the outstanding individual tax returns from 2005 to 2010 financial year, which is a great effort of her to put my personal financial back on to the track.

She is looking after all my business tax returns, business activity statements as well as my personal tax returns at the moment.

I trust her professionalism, competency and integrity in dealing with my financial affairs. I wish her all the best in applying for the tax agent license.

Your Sincerely,

Yi Sun

Director
